

SK808F CONVENTIONAL FIRE ALARM SIREN

SK808F conventional siren is designed to give sound and visual warning in addressable and conventional systems. It is suitable for indoor use with its robust and stylish design. When an alarm occurs on the panel, the SK808F indoor siren becomes active and can warn people both audibly and visually. The flash on the SK808F is 360-degree visible and has a sound intensity of 86 dB at 1 meter.

Features

- Robust and aesthetic ABS plastic case
- Transparent red color
- visual warning led and flash
- 86 dB sound intensity at 1 meter
- EN54-3 Certified
