

Dekon Intelligent Addressable Fire Alarm System

Model No: D-DD501 Addressable Smoke Detector

DESCRIPTION

D-DD501 Addressable Intelligent Optical Smoke Detector, The detector is plug-in type photoelectric smoke sensor with addressable analog communications. The sensor transmits an analog representation of smoke density over a communication line to a control panel. Inside MCU's EEPROM keep the sensor's address that can be set by a portable Address setting device PP201 Device Programmer. The detector can be given 1-250 address id.

The D-DD501 illuminates two red indicator through light guides, situated on the detector head. The two indicators provide 360° visibility. The Leds can be reset and extinguished by momentarily removing the power source.

FEATURES

- Dual indicator with light way.
- By intelligent property self-calibration and eliminates false alarms.
- Indicator output.
- EN54-7 Compatible.
- Diameter: 10cm; Height: 4,4cm; Weight: 90 gr.
