

Dekon Intelligent Addressable Fire Alarm System

Model No. D-DD502 Addressable Heat Detector

DESCRIPTION

D-DD502 Addressable Heat Detector, The detector is intelligent sensors that utilize a state-of-the-art thermistor sensing circuit for fast response. These sensors are designed to provide open area protection with 50 foot spacing capability.

D-DD502 heat detector is Class A1 (EN54-5) heat detector. Inside MCU's EEPROM keep the sensor's address that can be set by a portable, Address setting to be done by use of the device PP201 Device Programmer. The detector can be given 1-250 address id.

FEATURES

- Two indication LEDs.
- Indicator Output.
- 65 degree constant heat.
- EN54-5 Compatible.
- Diameter: 10cm; Height: 4,4cm; Weight: 77 gr.
