

Dekon Intelligent Addressable Fire Alarm System

Model No: D-DD512 Addressable High Temperature Heat Detector

DESCRIPTION

D-DD512 Addressable High Temperature Constant Heat Detector, The detector is intelligent sensors that utilize a state-of-the-art thermistor sensing circuit for fast response. These sensors are designed to provide open area protection with 50 foot spacing capability.

Inside MCU's EEPROM keep the sensor's address that can be set by a portable, Address setting to be done by use of the device PP201 Device Programmer. The detector can be given 1-250 address id.

FEATURES

- Two indication LEDs.
- Indicator Output.
- 78 degree high temperature constant heat detector.
- EN54-5 Compatible.
- Diameter: 10cm; Height: 4,4cm; Weight: 77 gr.
