

Dekon Conventional Fire Alarm System

Model No: D-DK241 Conventional High Temperature Heat Detector

DESCRIPTION

D-DK241 Conventional Heat Detector is intelligent sensors that utilize a state-of-the-art thermistor sensing circuit for fast response. These sensors are designed to provide open area protection with 50 foot spacing capability. D-DK241 heat detector is Class A1 (EN54-5) heat detector.

FEATURES

- Two indication LEDs.
- Indicator Output.
- EN54-5 Compatible.
- 78 degree high temperature constant heat detector.
- Diameter: 10cm; Height: 4,4cm; Weight: 77 gr.
