Model No: D-ED501 Addressable Smoke Detector

DESCRIPTION

D-ED501 Addressable Intelligent Optical Smoke Detector, The detector is plug-in type photoelectric smoke sensor with addressable analog communications. The sensor transmits an analog representation of smoke density over a communication line to a control panel. Inside MCU's EEPROM keep the sensor's address that can be set by a portable Address setting devicePP201 Device Programmer.

The D-ED501 illuminates two red indicator through light guides, situated on the detector head. The two indicators provide 360° visibility. The Leds can be reset and extinguished by momentarily removing the power source.

FEATURES

• Dual indicator with light way.
• By intelligent property self-calibration and eliminates false alarms.
• Indicator output.
• EN54-7 Compatible.
• Diameter: 10cm; Height: 4,4cm; Weight: 90 gr.
