

Dekon Intelligent Addressable Fire Alarm System

Model No: D-ST805 Addressable Sounder Detector Base

DESCRIPTION

D-ST805 Sounder Detector Base is designed for use audible and visual indication of detectors. The detectors are plug-in type photoelectric smoke sensors D-DD501, D-ED501, D-DK230, D-EK230, heat detectors D-DD502, D-DK231, Combined detectors D-DD502, D-DC232. Where needed D-SB604F Sounder Base can be used instead of DD-T Base.

Upon activation The D-SB805 illuminates four red indicator through distributed light guides, situated on the detector base. The four indicators provide 360° visibility. The Leds can be reset by the detector and extinguished by momentarily removing the power source. D-ST805 is non-transparent white color as the detectors.

FEATURES

- Not Required External Power.
- Programmable by Zone To Addressability.
- Compatible with DD and ED Series Devices.
- 40 Pieces Can Connect To Each Loop.
- Sound Level 86dB.
- Diameter: 10cm, Height: 25mm, Weight: 75Gr.
