

DT200 DETECTOR BASE FOR SURFACE MOUNTING

DT200 is used to assemble detectors and to connect cables. It works compatible with both addressable Redban XX38x detectors, allowing you to use different detector types in the same system. It is suitable for use in areas with surface-mounted cabling.

SUPPORTED DEVICES

DA381 Addressable Optical Smoke Detector

DA382 Addressable Heat Detector

IA382 Addressable Heat Detector

DA383 Addressable Combined Detector

DA381-IS Addressable Optical Smoke Detector
with Built-in Isolator

DA382-IS Addressable Heat Detector with Built-
in Isolator

DA383-IS Addressable Combined Detector with
Built-in Isolator
